

Rustic for Sale to Monterotondo Marittimo

200 square meters | : 1 | : 6

If you are looking for your corner of paradise in a quiet country atmosphere, this is an unmissable opportunity!

Just 9 km from the medieval village of Suvereto, here is a farm consisting of a vast land of 18 hectares with a picturesque rural farmhouse located in the middle of the Maremma countryside.

All 18 acres are contiguous and entirely flat, making the purchase of this property ideal for agricultural or development projects.

Crossing a municipal farm road, we find a rural farmhouse, surrounded by a further 5,000 square meters of land and completely to be restored, which constitutes a unique opportunity to create your dream country house or a base for your farm .

The property can be reached from a well-maintained farm road, making access convenient at any time of the year and by any means.

There is a private well, which guarantees the constant presence of water all year round, even in particularly hot seasons.

Don't miss the opportunity to create your own oasis of tranquility amidst the beauty of the countryside.
